The Net Zero Delivery Summit: Financing a Just Transition

Wednesday 24 May 2023,
9.00am – 6.00pm

This livestreamed Summit is free

Register now to join on 24 May

In association with:

Join the Net Zero Delivery Summit for practical insights from leaders transforming their business models and mobilising capital to meet climate goals on the approach to COP28.

The Net Zero Delivery Summit, hosted by the City of London Corporation and the Egyptian COP27 Presidency will bring together senior Ministers, finance and corporate leaders, and sustainability experts. We will be sharing best practice and replicable routes to tackling climate change and its effects on societies in a fair and inclusive way.

Net zero commitments must translate into action if businesses and governments are to meet their sustainability targets. With Just Transition at the core of the agenda, this Summit will provide a platform to those accelerating delivery worldwide.

Reflecting on the successes of COP27, together we will address:

- Mobilising capital into emerging markets
- Scaling high integrity voluntary carbon markets
- Developing mitigation and adaptation strategies powered by the global economy
- The opportunities of wholesale economic transformation
