

Service of Thanksgiving - Wren 300

As part of Wren 300 the Architects and Surveyors Livery Companies in collaboration with M&G Real Estate, the Constructors, Paviers and Wax Chandlers Livery Companies, have organised a service at St. Paul's Cathedral to celebrate the life and work of Sir Christopher Wren (1632-1723); Britain's greatest architect.

St Paul's Cathedral in London is his masterpiece of design. It took 35 years to build. He was Surveyor-General to six English monarchs. His most famous buildings are at the centre of national life and ceremonies. They include Royal palaces, the Royal Hospital, Chelsea and 52 churches built after the Great Fire of London in 1666.
